

## Remuneration report

During the annual general meeting of shareholders of the Company on 8 April 2020 the Shareholders adopted (i) the Company's amended remuneration policy with effect as from 1 January 2020 (the Remuneration Policy) and (ii) the long-term incentive plan for the Management Board. In conformity with paragraph 3.4.2 of the Dutch Corporate Governance Code, the essential elements of the agreements between the Company on one side and Marco Roeleveld and Jeroen van Rossen on the other side are summarised below and the amounts for 2021 are specified.

The Supervisory Board reviewed the remuneration arrangements of the Managing Directors supported by an external advisor, taking both the internal and external perspective into consideration. The rapid growth of Alfen came up as an important factor in both perspectives. The new remuneration policy will be submitted for approval to the General Meeting of Shareholders of Alfen on 7 April 2022 supported by a positive advice from the Works Council.

In 2021 the Company was able to perform in line with its financial guidance and able to realise its planned expansion program. As a consequence, Alfen did not have to apply for governmental support. Therefore, the Supervisory Board will stick to the agreed Short Term and Long Term bonus schemes and approves the cash bonus for 2021, which will result as outcome of the calculation of the KPI's.

The Remuneration Policy and business strategy have been aligned through the creation of specific short and long term targets that link each Managing Director's variable pay to the success of the Company. As such, both the short term and long term incentive plans are linked to the business strategy and accordingly to longer term value creation and sustainability of the Company. Reference is made to the STIP and LTIP paragraphs below on target setting. Variable remuneration is higher when targets are exceeded and no variable remuneration is payable if threshold targets are not met. This helps to ensure the alignment of the Managing Directors' interests with that of the Company's stakeholders and create a true pay-for-performance culture.

Before setting proposed targets the Supervisory Board carried out scenario analyses of the possible financial outcomes of meeting target levels as well as maximum performance levels and how they may affect the total remuneration of the Management Board.

### Fixed remuneration

In accordance with the Remuneration policy, the fixed gross remuneration for the Management Board is as follows:

Board Member	Annual base fee as per 1 January 2021
Marco Roeleveld - CEO	€356,000
Jeroen van Rossen - CFO	€277,000

### Pensions and other benefits

The Managing Directors will participate in the pension scheme of the industry wide pension fund for Metalektro, whereby the pensionable compensation is capped in line with the Dutch fiscal regime. Other benefits are a company car and participation in a collective health insurance plan. The Company has also arranged a Director liability insurance for the members of the Management Board.

### Notice period

The management agreements for the Managing Directors are entered into for an indefinite term. The notice period for the Managing Directors is three months and for Alfen N.V. six months.

### Severance payment

In line with current employment arrangements, the maximum severance payment, applicable to the Management Board members, is one year base pay in the proceeding financial year. No severance payment will be paid if the agreement is terminated earlier at the request or in the event of a seriously negligent behaviour of the Director. No such severance payments were made in 2021.

### The variable remuneration

The variable remuneration consists of a short-term incentive ("STI") and a long-term incentive ("LTI").

The Remuneration policy for the Management Board takes into account the pay ratio within the organisation. The Alfen internal pay ratio is calculated by dividing the average total Management Board compensation by the average employee compensation. The average employee compensation is based on the total personnel cost (defined as salaries and wages, social security contributions, pension contributions and share-based payment costs) and the average number of FTE's excluding the Management Board (see also Note 9, Note 11 and Note 15 of the Consolidated Financial Statements)<sup>5</sup>.

The internal pay ratio increased from 6.1 in 2020 to 6.9 in 2021 as a result of the remuneration policy for the Management Board as adopted in the AGM of April 2020.
